Watts per Socket / Item: 150/150

Some of our most popular lamps are made of porcelain because the creativity our artisans unleash on their surfaces makes them some of our most artful offerings. The Alesandria Table Lamp is a prime example, as the white porcelain body has been drawn upon in black to create a fanciful pattern. The optic crystal base and black optic crystal finial echo the contrast of the black-and-white body, while the black shantung shade brings extra oomph to the hand-drawn lines.
